

Brisbane Marine Show Streaker Boats for First Time in Queensland

The newly appointed Streaker Boats dealer, Brisbane Marine, wasted no time in promoting the quality fibreglass range of boats at the Gold Coast International Marine Expo.

A line up of three popular Streaker models was on display, the Sirocco 6100 Bow Rider, Bluewater 5700 and Navigator 5700. All the Streaker boats on display featured SCB (Streaker Composite Build) hulls.

Brisbane Marine proudly presented all three boats as factory rigged, Mercury four-stroke powered models.

“The appeal of the Streaker Select range is simplicity,” said Peter Benston, Dealer Manager at Streaker Boats Australia.

“We understand that choosing a boat can be difficult for first time and even repeat boat buyers. With Streaker Select, the customer chooses their Streaker model and then selects the Mercury outboard engine from the two or three models recommended. All Streaker models are supplied on a custom matched EasyTow trailer.”

“It couldn’t be any easier and the public at the Gold Coast International Marine Expo roundly welcomed our approach. Boat buying with a Streaker has never been easier.”
